

Presidio Investors makes a Control Investment in Resolve Tech Solutions, Inc., a Leading Technology Services Platform

Austin, TX and Addison, TX (April 28, 2021) – Presidio Investors LLC (“Presidio”) today announced a control equity investment in Resolve Tech Solutions (“RTS”), a leading technology services platform.

RTS offers technology services centered on SAP implementation, migration to secure cloud, upgrades to S4/HANA, IT solution development, RF and 5G test services. Customers include multiple agencies in the US Federal government as well as Fortune 500 companies.

After close, RTS will be led by an experienced executive team, including Shawn Sabanayagam (CEO), Vinod Muthuswamy (COO), Venkat Raman (CTO), (Sid) Syed Azhar (CRO), and Steve DeCosta (CFO).

“We are excited to partner with Presidio and the rest of the incoming management team to continue to serve our customers at the highest level and to expand into new, value-added service offerings,” says Venkat Raman, RTS Founder and newly-appointed CTO.

Given the strong tailwinds from the many planned SAP migrations to the cloud, an early focus will include continued expansion of RTS’ services portfolio into cloud migration of SAP workloads and offering managed cloud services in partnership with SAP, AWS, Google, and Microsoft. Continued support and improvement with existing Federal agencies remains the key priority for RTS, which will be complemented by growth plans including:

- growing its deep technical relationships with prime contractors and additional Federal agencies
- expanding SAP cloud migration and managed cloud offerings
- enabling and executing in-cloud migration to S4/HANA
- building Centers of Excellence for RTS in automation
- developing artificial intelligence (AI) and machine learning (ML) technologies
- continuing to deliver on its IOT and 5G edge solution deployments

Shawn Sabanayagam, incoming RTS CEO, says “I am thrilled to join this excellent management team and to help support their continued focus on attracting the best employees and technical resources with deep knowledge and experience in SAP S4/HANA migration, managed cloud delivery in AWS, Google and Azure secure cloud platforms, and digital transformation. Presidio Investors, one of the leading technology services investors in the middle market, provides ample resources to help RTS further scale our technology offerings and services for our customers.”

“Venkat and his team have developed an industry-leading platform that delivers immense value to customers, and we’re delighted to partner with him and his existing team, as well as with Shawn and the other new members of management, for the next phase of RTS’s growth,” said Karl Schade, Founder and Managing Partner at Presidio Investors. He continued, “We share the same vision as Venkat, Shawn, Vinod, Syed and Steve, and we see opportunities to grow RTS’ footprint by investing further in existing service offerings, expanding sales and marketing efforts, and pursuing strategic acquisition opportunities.”
